

**Number of ECTS per participant per academic year and registration requirements. Regulations for remaining on the programme.**

Number of MSc degree credits

This university Master of Science degree corresponds to 60 ECTS.

Minimum number of ECTS per participant per academic year and regulations for remaining on the programme

The programme is offered in one academic year and participants enrol for a total of 60 credits. This Master's is not available as a part-time degree as it has been designed as a professional programme intended for recent graduates with little or no working experience. In order for participants to acquire the skills needed to work in a business environment, the programme develops generic and specific skills through a syllabus designed for a full-time Master's programme.

In the case of participants with special educational needs, the programme's academic director will assess each situation individually. The participant may be assigned an academic tutor who, in addition, will act as a liaison between the participant and academic management, faculty and services.
