Short Bio:

Marco Errico is an Accounting Ph.D candidate at Esade Business School. He holds an M.Sc. in Accounting and a B.Sc. in Business Administration from University of Brescia - Italy. Before to join ESADE, He had been a financial analysts and he spent one year as Research Fellow in Accounting at University of Brescia.

His research interest lies on the economic consequences and the quality of financial reporting. More specifically, He studies how new accounting regulations can reduce information asymmetries, improving industry productivity, competition and supplier-customer relationship relationship.

Before to join Esade, He also had been teacher of different accounting courses at both undergraduate and postgraduate level in Italy.
