### **THEMIS curriculum components: one-year-format**

- **Selection**

Students will be selected by their home university and they will exchange on the fall term of the following academic year.

All students must demonstrate a superior level of academic performance, strong linguistic ability, as well as the desire and motivation for an international experience.

- **Study abroad term**

It offers the opportunity to acquire core knowledge and skills in an international context. While on the exchange, students will have the chance to create their own study plan by choosing their courses out of those offered by the partner school and approved by the network.

- **Joint Seminar**

The THEMIS seminar provides students with a chance to delve deeper into an area of international law relevant to their academic career. The seminar will focus on different subject each year and will be conducted in English. The program will develop by professors from the partner schools, local experts, and international faculty members. It will also provide the students with the opportunity to meet and share information with fellow network participants.

- **International Internship**

The internship is considered to be an integral part of the THEMIS educational experience. The internship gives the student a chance to put their academic knowledge into practice and begin developing their professional career. The THEMIS partners strongly recommend international internship or internships conducted abroad in an international environment (law studios, European organizations, multinationals...) and for 6 weeks. Students develop their ability to work in an international setting through their professional internships, creating a profile well-appreciated by international organizations.
