Learning resources

ESADE bachelor students can access the personalised MyESADE intranet with their user ID and password via the general ESADE website. There they’ll find all the information regarding learning resources:

- Online office to manage registration processes and request certificates and degrees
- Consult their marks and academic transcripts
- Access academic information (class schedules, exam dates, internal rules and teaching guides)
- Campus information (schedules and services)
- E-learning services for their classes, including recommended material for students, deadlines, etc.
- Calendars (their personal calendar, the general ESADE calendar and those for the work groups they belong to)
- Career Services resources and job offers
- Library catalogues, collections and online periodicals, as well as a large number of statistical databases in CD-ROM format.
- Responses to online surveys. Faculty and Academic Directors can also consult survey results.
