

Economic Environment Analysis

UGRA_000416

Departments	Department of Economics, Finance & Accounting
Teaching Languages	English
ECTS	3
Teacher responsible	Vives Perez Jordi - jordi.vives3@esade.edu Mengano Paolo - paolo.mengano@esade.edu

Course Goals

Upon completing this course, students will be able to:

1. Understand the International/Global Economy: Acquire a comprehensive understanding of global economic patterns and the effects of domestic and international policies.
2. Explore Global Economic Systems: Investigate the complexities of global economic systems, focusing on dynamics across different nations.

Additionally, students will:

1. Develop Analytical Skills: Enhance their ability to analyze global economic dynamics.
2. Apply Analytical Models: Employ models to interpret and forecast changes in global markets.
3. Understand Policy Impacts: Grasp how policies affect economic stability and growth.
4. Cultivate Critical Thinking: Develop critical thinking skills necessary to evaluate the implications of global economic interactions and policy decisions.

Previous knowledge

Macroeconomics I, Microeconomics I, Applied Mathematics for Management.

Teaching methodology

The methodology for this course is designed to maximize student engagement and comprehension through a blend of lectures, discussions, and case studies.

Description

Short description

The course expands foundational economic principles, equipping students with advanced analytical tools to interpret everyday news and engage with economic topics and policies. By integrating theoretical insights with practical case studies, the course prepares students for careers in business and policy-making, enabling them to navigate complex economic challenges and comprehend developments reported in leading financial publications.
