Description

Course contribution to program

In an increasingly globalized world, versatile and multilingual communication skills are needed, as well as a multicultural preparation.

Globalization also affects the job market in such a way that ESADE graduates not only compete with other graduates from Spain, but also from all over the world, young people who are often multilingual and culturally aware after several stays abroad.

At ESADE students have the opportunity to achieve sufficient mastery of a third language to be able to complete their university studies abroad (a German-speaking country) and take advantage of international job opportunities.

Deutsch 2 is the second of six German language courses designed to achieve these ends.
