Teaching methodology

In class, on-campus:

Lectures: presentation of the concepts of the module along with case-studies.

Model United Nations Simulation: individually or in groups, students will be assigned a delegation/country in a specific United Nations committee, agency or in another international organisation or forum to discuss a current international issue.

Outside class: Individual study and teamwork.

This course comprises both formative and formally assessed components. Students may get feedback in both group and one-on-one tutorial sessions (upon demand). The teaching team will adapt the simulation process as the sessions progress to ensure that all students have an opportunity to meet key assessment requirements; in some cases, this requires influencing the flow of debate and conduct of proceedings.
