

## Operations Financial Controlling: working capital and cash flow analysis

UGRA\_014626

---

Departments	Department of Economics, Finance & Accounting
Teaching Languages	English
ECTS	4
Teacher responsible	Tena Queralt Rafael - rafael.tena1@esade.edu

---

### Course Goals

#### MAIN GOALS

1. Analysis and understanding of the Operational Financial Management of a company from a practical point of view.
2. Understanding of the connection/influence between the 3 fundamental Financial Statements of a company: P&L, Balance Sheet and Cash flow.
3. Understanding of how the process of generation of cash from operations works for different business models.
4. Understanding of how the Working Capital works and how it must be assessed, optimised and managed.

### Previous knowledge

- Having sound knowledge of Accounting and Financial Analysis & Reporting.
- General understanding of the relevant connections between the 3 fundamental Financial Statements

### Description

### Course contribution to program

#### COURSE CONTRIBUTION TO THE PROGRAM

Many of the companies that enter bankruptcy processes and eventually disappear have a good proposal of value for their customers, but face financing difficulties. In most cases the problem is that their management does not pay enough attention to their business investment in Working Capital and, in times of economic crisis, lack sufficient liquidity to meet their payment obligations at the short term.

Operational Financial Controlling deals with the day to day activities of the Treasury and Financing department

### Bibliography

, Brealey & Myers. Fundamentals of Corporate Finance (Book)

E. Martinez-Abascal, Finance for Managers, McGraw-Hill (Book)

, Dell's Computers, HBS (Case Study)

, Play Time Toy Co, HBS (Case Study)

, Hampton Machine Tool Co, HBS (Case Study)

, Carrefour, HBS (Case Study)

## Activities

### In-class discussions and debates

Active attendance

### Written and/or oral exams

Final exam (40% weight of final grading)

### Interaction with visiting guest professionals

Visiting guests from banking activities to have a different perspective

### Project development and presentation

Based on any of the topics covered by the course a project, with a very practical approach (not theoretical) will be developed and presented by groups

### Case study analyses

Need to work out and develop 4 Business Cases which show particular business situations to solve from the working capital, financing and banking perspectives
