

Intensive Spanish: Advanced

UGRA_003290

Departments	ELC - Spanish Section
Teaching Languages	English and Spanish
ECTS	2
Teacher responsible	Laura Garcia Segura - laura.garcia25@esade.edu

Course Goals

The aim of this Intensive Advanced Spanish course is to provide students with the sufficient resources needed to achieve an advanced level of the language, enabling them to interact relatively easily in different situations, especially in the business context.

Students will be able to develop learning strategies appropriate for their level and be able to converse with native speakers at an appropriate rhythm and speed.

Taking advantage of the immersive situation in which students find themselves, this course also aims to enable students to fully integrate in local social, cultural and academic life, participating actively and sharing spaces with faculty, classmates and others in their social setting.

Previous knowledge

To be able to take part in this course, students have to have achieved the B1 level (Common European Framework of Reference, CEFR).

Prerequisites

To be able to take part in this course, students have to have achieved the B2 level (Common European Framework of Reference, CEFR).

Teaching methodology

The methodology follows a communicative approach. Learning is based on precise, varied and stimulating tasks, which focus on communication in realistic situations. Students will be encouraged to reflect on the meaning of documents, solve problems and make decisions in real exchanges within the group.

Description

Course contribution to

In an increasingly globalised world, business is not only undertaken at the regional level or solely within a neighbouring country, but on a far wider scale. Consequently, people need to develop versatile and multilingual

program

communication skills along with a broad and varied cultural background.

Globalisation also affects the job market, and competition is more intense. For foreign students visiting us, mastering a third language such as Spanish is fundamental, opening doors to job markets here and in Latin America.

For this reason, mastering a language such as Spanish will allow students to participate in job recruitment processes in Spanish-speaking firms and opt for jobs anywhere in the world.

In terms of the programme, learning and mastering Spanish will also enable students to sit classes, lectures and participate in groups carried out in Spanish, as well as interact comfortably with their classmates.

Short description

Taking advantage of the immersive environment in which students find themselves, the advance level aims to elevate their linguistic competence to a B2 level. This course is designed to enable students to fully integrate into local social, cultural, and academic life, allowing them to participate actively and share spaces with faculty, classmates, and others in their social setting. Through a variety of interactive and practical activities, students will develop the necessary skills to communicate effectively and confidently in diverse real-life situations.
