

Investment Banking Boot Camp

UGRA_015309

Departments	Department of Economics, Finance & Accounting
Teaching Languages	English
ECTS	3
Teacher responsible	Francesco Spinoglio - francesco.spinoglio@esade.edu

Course Goals

The aim of this course is to provide you with a strong understanding of financial markets and the main types of products traded within these markets. The course will focus on the money markets, the foreign exchange markets and fixed income markets. You will learn how instruments are priced, how they are traded, and how they are used to hedge financial risks.

Previous knowledge

No previous knowledge is required to take this course.

Teaching methodology

The course will be taught in a practical way, according to the methodology learn by doing. In addition, discussion and debate among students will be encouraged to foster collaborative learning. The intention is to make the course engaging and motivating for students, allowing them to acquire practical skills in the field of investment banking and financial markets.

Description

Course contribution to program

In recent years the financial system has been characterized by extreme volatility together with a rise in the level of instability in interest rate, equity, foreign exchange and commodity markets. Financial institutions and multi-national corporations face challenges and opportunities on a daily basis and it is necessary to develop strategies to adapt to these changing business conditions. A grasp of global financial markets and the products traded within them is vital in order to understand what these challenges and opportunities are and how they can be managed and exploited.

Short description

This course offers a comprehensive exploration of investment banking and financial markets, equipping students with both theoretical knowledge and practical skills necessary to excel in the finance industry. The curriculum covers key areas including investment strategies, market analysis, and financial instruments, preparing students for dynamic roles in global
