Course Goals

The goal of this course is to familiarise students with the TOEFL exam (the most recent version of the text, updated in 2026) and provide some practice of the test. In addition, there are activities that will improve students foundational skills that the test-takers are tested on during the TOEFL test.

Previous knowledge

There are no prerequisites for this course.

Prerequisites

None.

Teaching methodology

The components of the test are explained (Reading, Writing, Listening, Speaking) and then each of the tests is looked at in greater detail, followed by a practice of each part of the test. This is followed by a full mock TOEFL test, for which students will receive a grade. This grade is only orientative as this course itself is not graded. Please note that the teachers are not official TOEFL graders, however the official TOEFL criteria is used.
